HUMAN ENERGY

A favorable future for employees at New Park Mining Company is a fundamental necessity for continued successful operation. Excellent labor relations in the past are a basis for future good will. Most New Park employees stay with the company for many years. The average employee has been with us for approximately 5½ years. Good working conditions, sound wage structure, safety, welfare and retirement programs are factors that make work attractive at New Park. An apprentice training program is

planned to extend training privileges to our employees and to attract other desirable young men to our company. Under joint company and union sponsorship, such a program would outline the experience and training necessary to enable inexperienced employees to become skilled workers. As these employees acquire skill and experience under this apprentice training program, they will receive wage increases at periodic intervals in proportion to their progress. We are looking forward to making this plan a reality.

PETER JORALEMON Assistant Superintendent

Don Anderson and Walt Bauer, geologists, study maps of underground mine workings.

Bob Archer operates geochemical apparatus to test for mineral showings in soil samples.

Jay Burgener welds reinforcing steel used in the new hoist foundation.

Ernest Broadhead is operating an auxiliary hoist on the 1380 Level.

Bud Kuhlman adjusts the position of the new 6' sheave wheels for the new hoist installation, which is at the top of the 190° rope raise.

Frank Schooler and Andy Allison dump 40 cubic foot o cars into pocket on 1380 Level.

Lewis Shields grinds tungsten carbide bits that are used in drilling operations.

Virl Peterson operates an air-driven slusher hoist to scra ore into a chute.

Bill Button, Electrician, inspects power cables that enter the mine through an 800-ft. cable hole.

Sandy Pyper replaces worn mine rail in the Mayflower Tunnel.

Joe Lopez and Dan Norton drill ore in one of the Mayflower fissure stopes.

George Pitts operated this tractor many hours this past winter to keep our roads open.

Elden Davis operates a drill jumbo in one of our exploration crosscuts.
